SUBJECT: Authorization to Implement Labor – Management Partnership to Improve Work Hours and Attendance in the Department of Motor Vehicles.

ORIGINATING AGENCY: Office of the Mayor

By virtue of the authority vested in me as Mayor of the District of Columbia by sections 422(3) and (11) of the District of Columbia Home Rule Act of 1973, as amended, 87 Stat. 790, Pub. L. No. 93-198, D.C. Official Code §§ 1-204.22 (3) and (11) (2001), and the Labor Management Partnership Agreement (Partnership Agreement) between the Department of Motor Vehicles (DMV) and the American Federation of Government Employees – Local 1975 (AFGE 1975), dated June 13, 2003, it is hereby **ORDERED** that:

I. PURPOSE

The Partnership Agreement recognizes that customer service is enhanced and overall service costs are reduced when employees who have been properly trained for a job are present and available to perform that job. The purpose of the Partnership Agreement is to improve regular attendance and readiness to serve amongst DMV employees by collaborating with AFGE 1975 on the scheduling of hours of service, and by recognizing those who demonstrate high levels of attendance and punctuality.

II. IMPLEMENTATION

The D.C. Office of Personnel is hereby authorized to implement the recognition provisions of the Partnership Agreement, based upon submissions of employee eligibility as certified by the Director of the Department of Motor Vehicles, consistent with the program's guidelines (on file in DMV, DCOP and AFGE 1975).

LABOR MANAGEMENT PARTNERSHIP

WORK HOURS AND ATTENDANCE

Background:

There is no more valuable commodity and resource in the Department of Motor Vehicles than the labor hours provided by its employees. Customer service and satisfaction depends on the convenient and predictable availability of workers who are trained and ready to serve. The effectiveness of those workers is likewise affected by their working conditions and support. Labor and Management have identified their mutual interests in two important and related issues – hours of work and attendance.

Hours of Work

Because of the necessity and desire to expand service delivery options and flexibility to the public, various DMV service facilities are now open as early as 6:00 am, close as late as 6:45 pm, and include Mondays through Saturdays. While it is rare for any one facility to be open six days a week and no individual employee can be scheduled for more than five consecutive work days per week – this level of service flexibility for citizens results in a variety of shifts and schedules which cause significant impacts and adjustments for employees.

In order to meet its responsibilities as a responsible, concerned employer, the DMV desires to work closely with its union leadership and members to jointly assess the opportunities and impacts of expanded service hours to the public. Management intends to perform comprehensive analytic studies of service usage and demand, seek customer input, and compare its practices to that of other jurisdictions.

To achieve this, over the summer months management will conduct a study which defines service parameters, reviewing the data outputs, and develops alternative scenarios. Labor will serve as a partner in this effort, and will review and comment on the pros and cons of the scenarios presented. They will also help determine the most fair and equitable way to mitigate any negative impacts on the employees.

Attendance:

Customer service is enhanced and overall costs of service are reduced when employees who have been properly trained for a job are present and available to perform that job. Every employee rightfully has entitlement to the use of leave

for true emergencies and illnesses, as well as the planned time off for vacations and personal business.

Statistically, a very small proportion of any employee population will exhibit behaviors that misuse or abuse leave, and extensive counseling and discipline procedures exist for labor and management to address them. However, the behavior of the remaining majority of employees has a wide range of patterns, which can extend from perfect attendance to a regular and continuing use of leave that borders on excessive. It is the desire of labor and management to encourage and recognize employees who minimize their use of unplanned leave and report to work on time and ready to serve, by adopting a "Presenteeism" program.

Labor and management will jointly evaluate the baseline attendance numbers and seek to improve them. The improvement will be monitored and the service and financial benefits that the government derives from improved attendance will be shared with the employees through a recognition program. Labor and management will work together to communicate with employees, continually evaluate the attendance trends, and revise the program to encourage improved attendance.
